

**STATE OF MAINE REQUEST FOR PROPOSALS  
RFP BIDDERS CONFERENCE AND  
SUBMITTED QUESTIONS & ANSWERS SUMMARY**

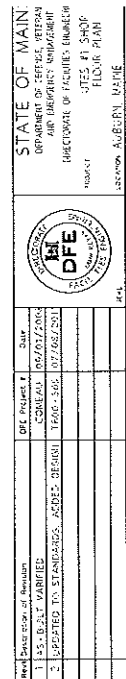

<b>RFP NUMBER AND TITLE:</b>	RFP#201707131 Geographic Information Systems Upgrade (GIS) (Camp Keyes, Augusta Maine)
<b>SUBMITTED QUESTIONS DUE DATE:</b>	August 08, 2017
<b>QUESTION &amp; ANSWER SUMMARY ISSUED:</b>	August 09, 2017
<b>PROPOSAL DUE DATE:</b>	August 17, 2017
<b>RFP ISSUED BY:</b>	Department of Defense, Veterans and Emergency Management
<b>PROPOSALS DUE TO:</b>	Division of Purchases Burton M. Cross Building, 4 <sup>th</sup> Floor 111 Sewall Street 9 State House Station Augusta, ME 04333-0009
Unless specifically addressed below, all other provisions and clauses of the RFP remain unchanged.	

Provided below are questions asked and the responses given at the Bidders Conference.

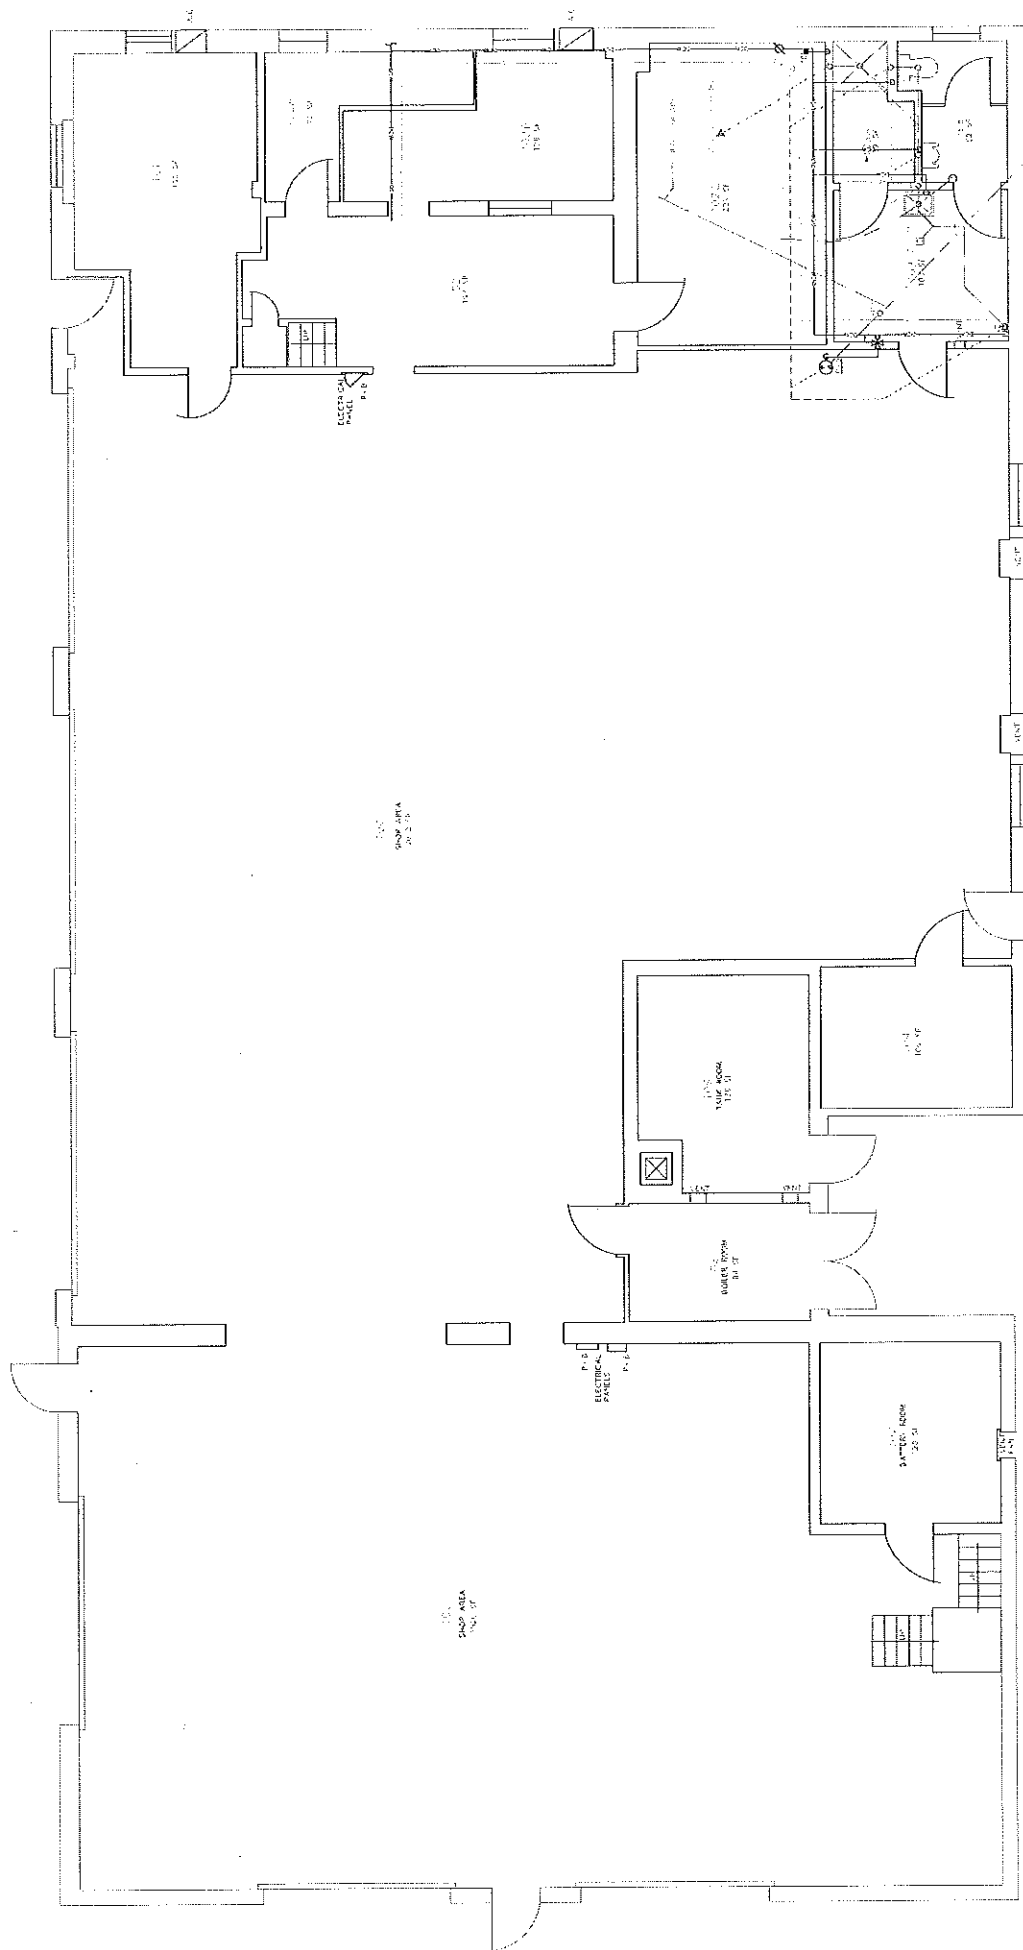

Question #	Question	Answer
1	Can you please provide a representative sample of the 130 floor plan files for the Project?	See attached. They are AutoCAD .dwg files.
2	For the XData population, in what form will the data known to be an item Provided, such as the site number, be presented? How is this information catalogued or structured to align with the floorplan file in which it must be Populated?	The site number and the building number are in most, if not all, Drawings' title blocks. If they are not in the drawing for any reason, a comprehensive list can be provided aligning the name of the drawing and/or the Name in the title block with the site and building numbers. The floor number, Room number and square footage are all in the drawings. The room name and space type are in some of the drawings and will be provided via a list Corresponding to the room number. We will try to provide as much information up front as possible, but if some information is missing and needs to be

		provided, we will prioritize the request and aim for a 1 day (business day) Turnaround.
3	What method will be used to communicate those XData items provided only if Not in the drawing? What should we anticipate as the turnaround time for Requests of this type?	The site number and the building number are in most, if not all, Drawings' title blocks. If they are not in the drawing for any reason, a comprehensive list can be provided aligning the name of the drawing and/or the Name in the title block with the site and building numbers. The floor number, Room number and square footage are all in the drawings. The room name and space type are in some of the drawings and will be provided via a list Corresponding to the room number. We will try to provide as much information up front as possible, but if some information is missing and needs to be provided, we will prioritize the request and aim for a 1 day (business day) Turnaround.
4	Is the contractor required to populate the PRIDE tables from the XData Attributes?	No, the contractor will not have access to or interaction with the PRIDE Database.
5	Is there a preset GIS schema that the files are to be exported into or will this task Be simple push based on the CADD layering and XData Structure?	Yes. The MEARNG GIS is required to adhere to the Spatial Data Standards for Facilities, Infrastructure and the Environment (SDSFIE) v. 3.1. An empty geodatabase schema can be provided during the 'development' phase of the Contract. The data will ultimately be loaded into the versioned ArcSDE Geodatabase built on SQL 2016.
6	Will the required criminal background checks be performed by The Department Or by an agent for the contractor?	The Background check will be completed by and is for The Maine Army National Guard.
